Summary

Forward-thinking Computer Engineering student focused on Machine Learning, driven by rapid prototyping, data storytelling, and scalable model-first problem solving.

Skills

- Programming Languages: **Python, C++, Java** (foundational understanding)
- Web Technologies: **HTML, CSS, JavaScript, PHP** (basic knowledge)
- Databases: **SQL**, Relational data querying & management
- Computer Science Fundamentals: Computer Networking, Operating Systems, OOP, **Software Engineering Principles**
- Tools & IDEs: Visual Studio Code (VS Code), Dev-C++, PyCharm, IntelliJ

Experience

ML Engineer intern | Sparks to ideas, Ahmedabad

May 2025 – July 2025

- Developed proficiency across 5 ML libraries (NumPy, Pandas, Scikit-learn) in a 6-week sprint, building core ML knowledge.
- Applied NumPy/Pandas for efficient data manipulation and management.
- Generated 4+ data visualization insights using Matplotlib to communicate data effectively

Python intern | Ramora Technologies, Rajkot

June 2024 – July 2024

- Completed 4 week foundational Python sprint, mastering core constructs (variables, loops, functions, file handling)
- Delivered 12 plus supervised problem solutions, strengthening logical execution and debugging accuracy
- Built 1 guided ML project prototype, applying Python fundamentals to structured model workflows

Projects

Smart Budget Tracker - Streamlit-Based App | [LINK](#)

Skills: Machine learning, Python, Project Management

- Built Streamlit based Expense Tracker enabling monthly income and category spend capture
- Delivered 4 plus chart insights (bar + pie + summary layers) using Pandas, NumPy and Matplotlib

Virtual White Board – Java GUI-Based Drawing Application | [LINK](#)

Skills: Java, Html, CSS

- Shipped 1 interactive Java Swing whiteboard enabling freehand and geometric drawing with 4+ controls (color, brush size, clear, save)
- Implemented 1 Save-to-PNG export pipeline, reinforcing Object-oriented programming and event-driven GUI workflows

Education

Computer Engineering (Diploma) | A.V. Parekh Technical Institute (GTU)

July 2023 – Present

Currently in 3rd year with **8.69 CGPA**

Sem 1	Sem 2	Sem 3	Sem 4
7.38 SPI	7.50 SPI	8.62 SPI	8.76 SPI

10th (GSEB) | Shree Swaminarayan Gurukul

Result: **80.50%**

Areas of Interest

- Data Analysis & Visualization
- Machine Learning & AI Applications
- User Interface (UI) Design & Development
